Summary

Artificial Intelligence and Data Science undergraduate with hands-on experience in Python-based data analysis, SQL querying, and AI/GenAI systems. Skilled in data cleaning, transformation, and exploratory analysis using Pandas and NumPy. Experienced in building data-driven applications and AI solutions with strong problem-solving ability and collaborative mindset.

Education

P.E.S Modern College of Engineering, Pune	2022 – 2026
Bachelor of Engineering in Artificial Intelligence and Data Science — CGPA: 9.0	
M.E.S Abasaheb Garware College of Science and Arts, Pune	2020 – 2022
HSC (Science) — 60%	
B.V.B. Paranjape Vidya Mandir	Till 2020
SSC — 89%	

Projects

PPE Compliance Monitoring System	Ongoing
- Developed computer vision pipeline using YOLO and OpenCV for real-time PPE compliance detection. - Processed detection outputs into structured datasets for monitoring and analytics. - Optimized model inference achieving 41 FPS for efficient real-time analysis.	
Secure Multi-Tenant RAG Document Assistant	Nov 2025
- Built a secure Retrieval-Augmented Generation (RAG) system enabling organizations to query internal documents using natural language. - Implemented document indexing, embeddings, and vector search for efficient knowledge retrieval. - Developed multi-tenant architecture ensuring secure access control and scalable document Q&A workflows.	
VFit Accessories – AI Virtual Try-On	April 2025
- Built computer vision system to analyze facial features and recommend accessories using image processing. - Implemented real-time image processing pipeline using OpenCV for interactive visualization. - Improved system performance through optimization of model inference and UI responsiveness.	

Work Experience

Machine Learning Intern	Sept 2025 – Oct 2025
CodeAlpha Limited	
- Built machine learning models using Python, Scikit-learn, and TensorFlow for predictive analytics tasks. - Performed exploratory data analysis, data cleaning, and feature engineering using Pandas and NumPy. - Generated insights and visualizations to support model evaluation and data-driven decisions.	
Full Stack Development Intern	Jan 2025
CodeAlpha Limited	
- Developed web applications using React.js, HTML, CSS, and JavaScript. - Built RESTful APIs using Node.js to enable backend data integration and JSON-based communication. - Used Git and GitHub for version control and collaborated on debugging and testing workflows.	

Technical Skills

Programming: Python, SQL, JavaScript, C/C++, Java
Data Analysis: Data Cleaning, Data Transformation, Exploratory Data Analysis, Statistical Analysis
Python Libraries: Pandas, NumPy, Matplotlib
Machine Learning / AI: Scikit-learn, TensorFlow, NLP, Computer Vision, Generative AI Concepts
Databases: MySQL, MongoDB, PostgreSQL
Web & APIs: Node.js, REST APIs, JSON, React.js
Tools: Git, GitHub, Jupyter Notebook, VS Code, Postman, Power BI

Achievements

- Avishkar Competition — State Level Semi-Finalists, Top 10 out of 1500+ Teams (2025)
- 2nd Prize — College-Level Technical Competition
- Innovatexpo MESCOE Hackathon Finalist (2025)
- NPTEL: Introduction to Machine Learning (2025)
